INFO.

1953 - January 1954

THIS IS U.NEVALUATED INFORMATION

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U. S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENT TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

1. No provisions have been made for the construction of an ore briquetting installation at Eisenwerke West Calbe in 1954 or 1955. Professor Saeuberlich (fnu), who is currently working at Maxhuetten, will have to draft a research plan for such an installation before any construction can be undertaken.
2. Up until 17 June 1953, losses at the Hennigsdorf plant were calculated at 30,755 million DME. After 17 June, losses amounted to 43,022 million DME, representing an increase of 12,267 million DME. The increased losses were caused by the lowering of norms, the partial increase of salaries (particularly for specialists); and the general slow-down of work at the plant. No direct losses were incurred through acts of sabotage.
